## Douglas Elliman

Douglas Elliman Inc. (NYSE: DOUG, “Douglas Elliman”) owns Douglas Elliman Realty, LLC, which is one of the largest residential brokerage companies in the United States with operations in New York, Florida, California, Texas, Colorado, Nevada, Massachusetts, Connecticut, Maryland, Virginia and Washington, D.C. In addition, Douglas Elliman sources, uses and invests in early-stage, disruptive property technology (“PropTech”) solutions and companies and provides other real estate services, including development marketing, property management and settlement and escrow services in select markets. Additional information concerning Douglas Elliman Realty is available on its website [elliman.com](https://www.elliman.com)

Investors and others should note that we may post information about Douglas Elliman Inc. on our website at [investors.elliman.com](https://investors.elliman.com) or, if applicable, on our accounts on Facebook, Instagram, LinkedIn, TikTok, Twitter, YouTube or other social media platforms. It is possible that the postings or releases could include information deemed to be material information. Therefore, we encourage investors, the media and others interested in Douglas Elliman to review the information we post on our website at [investors.elliman.com](https://investors.elliman.com) and on our social media accounts.

## Miller Samuel

Established in 1986, Miller Samuel is an independently owned firm that provides appraisal and consulting services on residential property in New York City as well as Westchester County, Fairfield County, Long Island, The Hamptons, and North Fork. With a certified or licensed appraisal staff averaging more than sixteen years of experience, Miller Samuel is known for its neutral valuation perspective and professionalism. It provides their clients with benchmark insights to make more informed decisions. Their clients include domestic and international financial institutions, law firms, consulting firms, developers, employee relocation companies, co-op boards and condo associations, managing agents, individuals, and government agencies. Miller Samuel provides appraisal services for purchase and refinance mortgage origination, collateral management, foreclosure, estate, trust, gift, divorce, bankruptcy, litigation, buyer and seller valuations, as well as expert witness services and extensive assignments covering roof, hallway, basement, and other common area valuations and share allocations. Miller Samuel authors well over 100 market reports a year in U.S. sales and rental markets to provide better transparency to consumers and real estate professionals.

Manhattan, Brooklyn & Queens

### Annual Sales

Manhattan Decade

## Methodology

The aggregate of our four quarterly reports published during the year, each known as the “**Elliman Report: Manhattan Sales,**” is based on the data available at each release period. After the end of each quarter, sales data continues to fall within those quarterly report time frames because of the lag between the closing date and the recording date. As a result, this Decade report does not include all sales during the year but has a significant sample size and is helpful for market trend references. The primary data source is the New York City public record, ACRIS. The analysis relied on additional sources, including data collected through Miller Samuel and Douglas Elliman’s business operations to supplement or complement public records.

This report’s coverage of the Manhattan real estate market is comprehensive, encompassing the borough of Manhattan. The areas presented overlap in numerous ways because they reflect different markets, neighborhoods, and sub-neighborhoods. The totals from these breakdowns exceed the overall Manhattan statistics. For example, a condo sale in Carnegie Hill is also included in the Upper East Side condo statistics, the East Side condo statistics, East + West + Downtown condo statistics, Manhattan condo statistics, and Manhattan co-op + condo statistics. The idea behind this overlapping coverage approach was to parse market information in commonly accepted delineations that were most requested and practical but, most importantly, had an adequate depth of data to extract trends reliably.
